

Hidden Faces of DIABETES

**7-8 MARCH 2014
DUBAI, UAE**

Pfizer is very pleased and honored to invite you to the **Hidden Faces of Diabetes Summit**, to be held on **7-8 March 2014** in **Dubai, UAE**.

Entitled **“Unveiling the complications of diabetes mellitus”**, the Summit represents a knowledge and experience sharing platform focused on highlighting the burden of diabetes mellitus and its complications, namely diabetic peripheral neuropathy and diabetic dyslipidemia, and the importance of optimally managing these complications. This will be an excellent opportunity for you to engage with leading global and regional thought leaders in diabetes management, as well as to share your experience with your colleagues from across Africa and the Middle East.

We look forward to your participation at what promises to be a compelling and informative meeting.

Yours sincerely,

Dr Iqbal Omar
*Senior Regional Director, Medical Affairs
Pfizer Emerging Markets Africa & Middle East*

Dr Sid Ahmed Kherraf
