Pelvic Health:  
European  
Expert  
Forum 2015

Dear .....

Join the expert faculty in urology, uro-gynaecology and gynaecology in the 8th Pelvic Health European Expert Forum, which is designed to be a highly informative and educational programme. The event will strongly focus on workshops appealing to your specialty, which will be translated into a number of languages including French and Spanish.

#### Key Programme Highlights

##### Plenary Sessions:

- Insights into maximising therapeutic impact for the challenging OAB patient
- Optimising the benefits of antimuscarinic treatment in ageing OAB patients
- Review and key opinions of current guidelines and recommendations for treating the OAB patient

##### Workshops:

- Learn from key experts to support your approach to patient management techniques through current and relevant case-based discussions
- Attend three interactive and educational workshop sessions throughout the programme
- State-of-the-art treatment therapies relevant to clinical practice

Part of this meeting has been submitted for EACCME accreditation. Please see agenda for more details.
